

### **LANXESS participates in PU Tech 2017, March 8-10, 2017 in Delhi**

**Noida, Delhi** – LANXESS, the global specialty chemicals company, is showcasing its wide-ranging product portfolio which meets virtually all the polyurethane industry's requirements, at PU Tech 2017 being held during 08 to 10 March 2017, at the India Expo Center, Greater Noida, New Delhi. The comprehensive product range includes flame retardants, plasticizers, crosslinking agents, catalysts and hydrolysis stabilizer for rigid and flexible foams, coatings, elastomers, sealants and adhesives.

The focus will be on products such as Stabaxol® (hydrolysis stabilizers), Addonyl® (additives and catalysts for cast nylon) along with Addocat® catalysts, Addolink® crosslinkers and Addovate® stabilizers (for the production of polyurethane flexible foams).

The Disflamoll® 51092 grade was primarily developed for PU flexible foam and elastomers while Levagard® TP LXS 51114 is specifically suitable for flexible foam. Both flame retardants can be used in polyester as well as in polyether flexible foams. Foams manufactured using Levagard® TP LXS 51114 even meet the German Association of the Automotive Industry's strict VDA 278 standard for the characterization of non-metallic materials in cars.

The established reactive flame retardant Levagard® 4090 N is now available in improved quality owing to process optimizations. The lower acid number and water content ensure better processability, especially in the manufacture of rigid polyurethane foams.

LANXESS will also be exhibiting its phthalate-free plasticizers from the Mesamoll® range for the first time at PU TECH. They are ideal for the production of PU sealants or for use as cleaning agents for polyurethane processing equipment.

“At LANXESS, we stand for tailor-made solutions, top technical know-how and the ultimate in additives expertise. We develop, produce and market additives, phosphorus chemicals and specialty chemicals and service products for the worldwide rubber, lubricants and plastics industries. PU Tech gives us a good opportunity to showcase our competencies and interact with our Indian customers,” said Mr. Sriganesh U. P., Head of Business Unit Rhein Chemie Additives, LANXESS India Private Limited.

The PU TECH Exhibition & Conference 2017, highlights the developments in the Polyurethane Industry, Processing Techniques, Machinery, Raw Material Innovations and user preferences etc. The event is expected to bring together raw material producers, equipment suppliers, end-users and the industry at large under one roof to provide for a comprehensive growth of technology & markets.

#### **About LANXESS:**

LANXESS is a leading specialty chemicals company with sales of EUR 7.9 billion in 2015 and about 16,700 employees in 29 countries. The company is currently represented at 54 production sites worldwide. The core business of LANXESS is the development, manufacturing and marketing of chemical intermediates, specialty chemicals and plastics. Through ARLANXEO, the joint venture with Saudi Aramco, LANXESS is also a leading supplier of synthetic rubber. LANXESS is listed in the leading sustainability indices Dow Jones Sustainability Index (DJSI World) and FTSE4Good.
